

# Seat Base Swivels

► For Toyota Hiace / Mercedes Sprinter / Iveco Daily / LDV Deliver 9 / Ford Transit

Motorhome & Campervan

## Low Profile Design

compact design maintains interior space

## Space-Saving Function

creates usable cabin space when parked

## OEM Mounting Points

bolts to existing factory seat anchorages

## Hard-Wearing Swivel Plates

durable mechanism for frequent use

## Driver and Passenger Fitment

suits OEM front seats

## Australian Steel Construction

strong, lightweight construction

## Create usable campervan space without compromising compliance.

Techsafe seat base swivels allow front seats to rotate into the cabin area, improving interior usability for campervans, mobile workspaces, and specialist vehicle conversions. This simple upgrade helps create a more functional living and working space when parked, without compromising safety or compliance. Designed and manufactured in Australia, the base mounts to existing OEM anchor points, making installation straightforward for approved installers.

## Typical Applications

Motorhome and campervan conversions, mobility access vehicles, and specialist transport builds.

## Compliance You Can Trust

ADR COMPLIANCE

5-YEAR WARRANTY

AUSTRALIAN MADE

OEM MOUNTING

HEAVY-DUTY CONSTRUCTION

INSTALLER SUPPORT

## Important

Installation must be carried out by a competent installer and certified to applicable regulatory requirements. Vehicle-specific installation requirements apply, and seats must face forward while the vehicle is in motion. Refer to installation instructions for full details.

## ► Seat Swivel For Toyota Hiace H300 Van 05/2019 On

| Code       | Product Name                                                                    | Install Kit | Swivel Mass |
|------------|---------------------------------------------------------------------------------|-------------|-------------|
| SWL-H300   | Seat Swivel – Driver or Passenger Seat<br>(without centre console infill parts) | PK235       | 12.3kg*     |
| SWL-H300-C | Seat Swivel – Driver or Passenger Seat<br>(with centre console infill parts)    | PK236       | 12.3kg*     |

Due to integrated design of the seat base, the available head clearance for the seated occupant does not change from that provided by Toyota. Centre console removal required. Driver side requires handbrake relocation. OEM seats only.

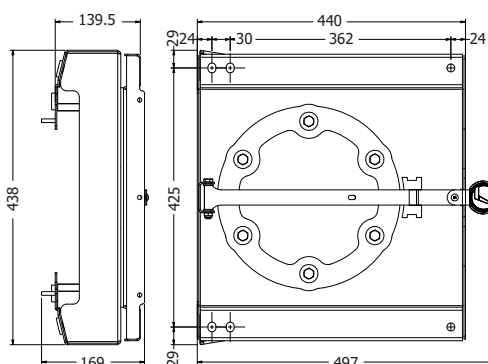

\*Net +8.4kg (minus OEM base which is removed)

Ships Within 5 Business Days (Under standard order volumes and production conditions)
