

# Triple Reverse Facing Flip-Up Seat

► Toyota Hiace Commuter H300 SLWB People Mover 05/2019 On

Wheelchair Access (WAV)

## Optional armrest

Shown fitted, available as an option

## Trim options

OEM-matched trim options

## Auto-folding nearside seat

Improves access in tight spaces

## Reinforced headrest

Heavy-duty internal structure

## Integrated seatbelts

ADR-compliant restraint system

## Flip-up removable cushions

Creates wheelchair clearance when required

## Flexible, compliant seating for Toyota Hiace Commuter wheelchair access conversions.

Adds reverse-facing seating to provide maximum seating capacity for wheelchair access vehicles. Removable seat cushions allow space for up to two wheelchairs when required. The nearside auto-folding base and integrated assist handle support safe entry and exit. Reinforced headrest posts improve durability, with trim options available to match factory interiors. Engineered and tested for ADR compliance, manufactured in Australia, with Techsafe technical support available to assist installers.

## Typical Applications

Wheelchair access conversions for Toyota Hiace Commuter. Fleet use including Maxi-Taxi, community transport, aged care and disability services.

## Compliance You Can Trust

ADR COMPLIANCE

5-YEAR WARRANTY

MADE IN AUSTRALIA

INTEGRATED SEATBELTS

FLEXIBLE SEATING

WHEELCHAIR ACCESS

## Important

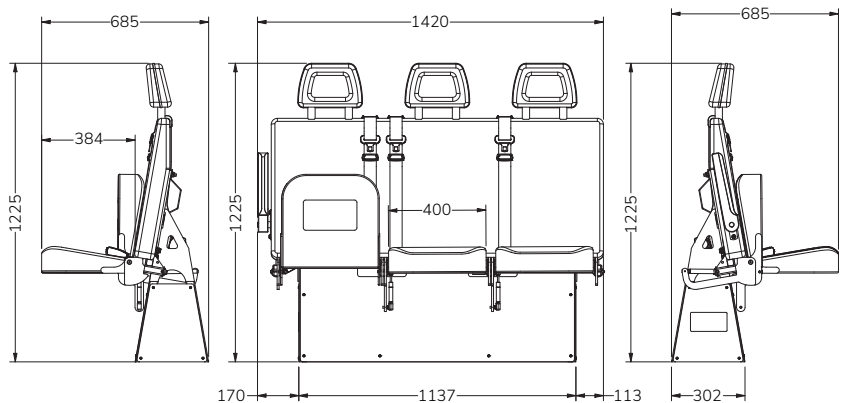

Seat bases must be removed when carrying two wheelchairs. Where more than one (1) wheelchair space is provided, it is the responsibility of the modifier and certifier to ensure all wheelchair space clearances meet applicable state and national regulatory requirements.

## Complies With

ADR 3/04, 4/06 & 5/06  
Test Report No. 0200022L001Rev1

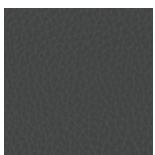

Example: Wheelchair access layout using Triple Reverse Facing Flip-Up Seat with Fold-Up Double Seats
